

DEVEN JOSHI

Independent Board Director | AI Governance | Enterprise Technology | Digital Transformation | Strategic Growth

Orlando, Florida | (407) 474-6124 | idevenjoshi@gmail.com |

BOARD PROFILE

Accomplished technology executive with more than 25 years of experience advising executive leadership and delivering enterprise transformation across Fortune 100 organizations, global consulting firms, public sector institutions, and the U.S. Department of Defense. Brings extensive leadership in artificial intelligence, cloud modernization, enterprise platforms, digital strategy, and business transformation within highly regulated and complex operating environments.

Offers the Board an informed perspective on technology governance, enterprise risk, innovation, cybersecurity oversight, and long-term strategic investment. Recognized for helping organizations navigate transformational change while balancing growth objectives with operational resilience, regulatory expectations, and responsible technology adoption.

Throughout his career, has partnered with C-suite executives, business leaders, government agencies, and strategic alliances to evaluate complex initiatives, strengthen organizational capabilities, and align technology investment with broader business priorities. Combines executive leadership with sound judgment, collaborative decision-making, and a governance-oriented approach that supports sustainable enterprise performance.

EXECUTIVE LEADERSHIP EXPERIENCE

C5MI (Insight)

Chief AI Officer | February 2026 – Present

Provides executive leadership for the organization's artificial intelligence strategy, enterprise innovation initiatives, and governance framework supporting commercial and Department of Defense clients.

- Directs enterprise AI initiatives designed to integrate intelligent technologies into business operations while promoting responsible governance and long-term organizational value.
- Guides executive leadership on AI strategy, technology priorities, and innovation initiatives aligned with business growth and operational effectiveness.
- Collaborates with research institutions and strategic partners to advance governance standards supporting secure and responsible enterprise AI adoption.
- Strengthens organizational readiness through governance frameworks that encourage scalability, accountability, and disciplined implementation.

Google Public Sector

Customer Engineer – AI, SAP & ERP | April 2025 – February 2026

Served as a strategic advisor supporting federal agencies and defense organizations undertaking enterprise modernization and cloud transformation initiatives.

- Advised senior government stakeholders on enterprise AI, cloud adoption, and technology modernization supporting mission-critical operations.
- Contributed to strategic technology pursuits involving major Department of Defense organizations and complex digital transformation programs.
- Helped executive leadership evaluate modernization strategies that balanced innovation, security, and long-term operational objectives.
- Fostered collaboration across government agencies, technology partners, and executive leadership to support enterprise transformation initiatives.

Google Cloud

Customer Engineer – SAP | December 2021 – April 2025

Advised Fortune 100 enterprises and public sector organizations on enterprise cloud strategy, digital transformation, and technology modernization.

- Served as a trusted advisor to executive leadership evaluating strategic technology investments and enterprise transformation opportunities.
- Led executive engagements focused on cloud strategy, analytics, AI, and business modernization.
- Expanded strategic alliances across Google Cloud, SAP, PwC, SAP NS2, and C5MI to strengthen market development and customer success.
- Supported organizations in aligning technology decisions with operational priorities, scalability, and long-term business objectives.

Kochasoft Inc.

Vice President, Chief SAP Solution Lead – Cloud & Digital Transformation | September 2019 – January 2021

Provided executive leadership for enterprise cloud transformation, digital modernization, and strategic technology consulting.

- Expanded the SAP on Azure practice from approximately \$1.5 million to more than \$5 million through strategic business development and delivery leadership.
- Directed multidisciplinary teams responsible for enterprise transformation initiatives across cloud, analytics, and ERP modernization.
- Partnered with executive stakeholders to improve organizational scalability, operational performance, and customer value.
- Worked alongside Microsoft engineering teams on enterprise modernization initiatives supporting complex global organizations.

Deloitte & Touche LLP

Senior Engagement & Product Manager / Technical Program Manager | 2013 – 2019

Led enterprise transformation initiatives and strategic technology programs supporting financial services organizations and Fortune 100 clients.

- Directed complex transformation programs involving digital innovation, predictive analytics, operational improvement, and enterprise modernization.
- Advised executive leadership on technology strategy, governance, business transformation, and organizational performance.

- Managed cross-functional initiatives requiring stakeholder alignment, program governance, and disciplined execution across multiple business units.
- Supported the development of enterprise platforms designed to strengthen long-term business capability and operational effectiveness.

United States Army

Senior Architect / Solutions Lead | 2002 – 2010

Supported enterprise logistics modernization initiatives across large-scale defense operations.

- Led modernization efforts across supply chain, procurement, logistics, and enterprise systems supporting mission readiness.
- Worked within highly regulated environments where governance, compliance, operational continuity, and security were essential to organizational success.
- Provided strategic technology guidance supporting enterprise modernization and long-term operational capability.
